

**Multicom is hosting a Foxcom/SBCA training session in beautiful Orlando, FL**

---

*Time is money and the proper training saves time!  
Multicom and Foxcom are hosting an MFH-2 and an Intro to Fiber training session at the  
Multicom facility in Orlando, FL. Get your SBCA certifications now.*

MFH-2 has become the standard for most DirecTV installations. Fiber is being deployed at an ever increasing rate. Now you and your installers can obtain the knowledge necessary to install, troubleshoot and maintain these systems properly.

Both courses are SBCA Certifications

**MFH-2 Course**

- Identify all of the components of the MFH2 distribution system
- Understand the differences between the MFH2 distribution and standard satellite distribution systems
- Explain the importance of using high frequency components
- Read system design specifications for MFH2 technology
- Properly install MFH2 distribution system
- Balance the system to ensure proper operation
- Effectively troubleshoot MFH2 systems
